AN EYNSFORD teen is set to be involved in a gaming world record.

Aaron Reeve, of Station Road, will be one of at least 301 youngsters taking part in the Microsoft and Train2Game Gameathon 2012, which involves making video games in 48 hours.

code master: Aaron Reeve

The 18-year-old developer student will aim to be part of the largest group of people at a games jam of under 72 hours with his team tomorrow (Friday) at the University of Bedfordshire.

He said: "I'm really looking forward to once again pulling a team of random people together to produce another brilliant game.

"This year I believe I am better matured into this team leader role.

"I'm looking forward to seeing everyone's excitement as it starts and hopefully seeing other teams burning out early to let us sneak ahead and obliterate our competition.

"This will be amazing work for my portfolio as well as gaining great experience."

Train2Game is the world's first blended learning course specifically designed for the games industry.
